Safety is of utmost importance at Norfeldt. Throughout the year we have fire drills and lock down drills to ensure that all staff and students know what actions they need to take in case of various emergency situations. Today we practiced a "medical emergency drill." During medical emergencies, we have staff trained to respond to the emergency, and students clear the hallways and remain in their locations to allow medical personnel easy access, and to provide privacy for the injured/sick person. If you ever have any questions related to safety, please do not hesitate to ask. We have a Safe School Climate Committee that meets regularly to ensure we are being proactive and ready to handle various scenarios.

Have a fantastic remainder of your week and I hope to see you tomorrow evening!

Jen
